# International Safety , Security and Risk Prevention Exhibition

---

Due to the growing interest in the development of the safety and security industry worldwide , and to the increase in the rate of local; Arab ; and international investments in Syria in infrastructure; real estate development ; oil ; industrial; and tourism projects , AGE for Exhibitions and Conferences with Pyramids Group launches the 1st edition of the International Exhibition for Safety , Security and Risk Prevention 'Safety & Security' Which will be held within the ' BUILDEX exhibition for infrastructure and municipalities' from 15 to 19 December.

The International Safety , Security and Risk Prevention Exhibition 'Safety & Security' offers a real opportunity to introduce the latest products , services and technologies related to security , safety , disaster management, and occupational safety industries , in response to the growth that the region is experiencing – particularly Syria – in planning and executing many large and vital projects the require systems, programs and equipment that guarantee safety and security to prevent possible risks that threaten personnel and establishments.
